To
SECY LAW DEPT
GOVT OF MYSORE
NARAYANASWAMY NAIDU, Esq. B A B L ,
Secretary to Government of
His Highness the Maharaja of Mysore,
Law Department, Bangalore

Sir,

"Q" I have the honour to state that in the Bangalore City Municipality, there is a Government Order No 3815-19 Ml 74-37-126 dated Bangalore 10-10-39 regarding the procedure to be adopted in case the road surface is to be cut either by the Sanitary or Electrical Departments. A copy of the Government order is herein enclosed for ready reference

In Mysore City however, there is no Government order regarding the procedure to be adopted when the road is to be cut by the Electrical or Water Supply Departments Whenever an electric cable or a water submain is to be laid, the electrical or Water supply Department cuts the road surfaces indescriminately and leave the surface filled up with merely debris As they have not got any road gang for reforming, the cut surface is left most incomplete and unsatisfactory The electrical Department has several times refused to pay for the restoration of the road surfaces and foot-paths cut open by them With a view to make good the damages done to the roads and incurring of unnecessary expenditure by the Municipality in repairing such roads, the following instructions may kindly be

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

Read -

Correspondence ending with letter No AC 797/36-37 dated 27th June 1939, from the Municipal Commissioner, Bangalore city for approval a set of draft rules, relating to the cutting up of in the City Municipal limits

---

Order No L.3815-19/M1 74-37-126 dated Bangalore, the 10th October 1939

The Municipal Commissioner, Bangalore City, has been repeatedly bringing to the notice of Government that the roads in th which are repaired and maintained at a heavy cost are cut open ofte several times in a year - by the Water supply, Electrical and Sanit Departments - in connection with the laying of filtered water lines, electric cables and underground sewers respectively without any previo intimation and that in some cases, even good tarred roads are being da considerably without funds being placed at the disposal of the Mun Engineering Department for reforming the roads The reformation cut roads when done by the Departments is said to be incomplete & satisfactory It is reported that the Electrical Department has refused to pay the for the restoration of the untarred roads and fo paths cut open by them

2 With a view to make good the damage thus done to the roads the incurring of unnecessary expenditure by the Municipal Council in repairing such roads, the Municipal Commissioner forwarded a set for the approval of Government in this behalf These rules were to the Chief Engineer and the Secretary to Government, Electrical De for their opinions, which were again sent to the Municipal Commissi for consideration and incorporation in the proposed rules The Mu Commissioner has finally, with the approval of the Municipal Coun forwarded for sanction of Government under Section 58(1) of the

City Municipalities Act 1933, read with section 228(1) thereof a set of revised rules on the lines of those obtaining in the C & M Station, Bangalore

3 Government observe that there is considerable force in the representation made by the Municipal Commissioner on the subject, as the Municipal Council has to maintain the roads in an efficient condition not only with ~~th~~ a view to avoid recurring expenditure but also serious inconvenience to traffic It is not also unreasonable for the Municipal Council to expect previous intimation and deposit in advance from the Departments concerned

4 Government, however, consider that no formal rules need be framed in the matter but that it would be sufficient to issue instructions for the guidance of the departments concerned They are accordingly pleased to approve of the set of instructions appended to this order which will be supplementary to the rules issued for regulating the water supply in Bangalore City Government trust that these instructions will ensure the co-ordination of the work of the several departments of Government with the City Municipality so as to enable the latter to keep the roads in the city Municipal limits in an efficient condition

5 Questions if any, outstanding between the Municipal Council and the said Departments may also be disposed of on the basis of these instructions

Sd/
For Secretary to Government,
Law Department

Appendix

16

Insturctions regarding the procedure to be adopted for Road cutting whether for laying filter water lines or electric cables in Mysore City Municipality

1. Only licensed plumbers and electric contractors and ~~Government Departments of~~ the Water supply, electric and Sanitary departments are permitted to cut any Municipal Road or lane in any part of the City

2 All licensed plumbers and electric contractors, will have to pay an initial deposit of Rs 50/- towards Road cutting charges for all kinds of work

3 In the case of Government Departments, they will have to deposit first the money as per calculations based on the rates in the schedule noted below, in advance before they are permitted to cut the Road

4 Three days' clear notice should invariably be given regarding the date when the road will be cut

5. In the case of Licensed plumbers, bills for road cutting done are sent to them periodically to be paid within seven days from the date of memo, after which date no more work will be permitted to be done by the plumbers, till the amounts are paid in full

6 Plumbers and Departments should make ~~their own~~ arrangements for barricading and for ensuring safety to the users of the roads, while the work is in progress They should leave the work after completion in a manner ~~in which it is~~ quite safe ~~to the~~ for traffic

7 Three days' clear notice should also be given regarding the date on which the work is likely to close and the work finished so as to enable the Municipality to take up reconditioning immediately the work is closed and left finished as per clause 6 But in the case of leakages or bursts immediately to be attended to departmentally, notice should be given as early as possible.

8 The bills are prepared on the quantity of work done according to the rates in vogue for road cutting charges For reconditioning the surface, the area for reforming will be more than the area actually cut, which allows for cutting the undisturbed surface round the cut portion so as to have a grip with the old surface

1	Consolidating the excavated and filled bit	3 as a sq yd
2	Relaying unsize stone paving with 10% extra	anna 1 per Sq ft
3	Boulder soling	Rs 3/- per Cyd
4	Quart~~z~~ metalling 3" thick	Rs 5/- per Cyd
5	Consolidation of metal etc	0-3-0 per Syd
6	Tarring surface dressing	0-4-0 per Syd
7	Resetting kerbing	0-1-0 per Rft

Add to the above - Supervision charges - 15%
